

School-Based
Health Initiative

Strengthening Partnerships To Improve Student Health Outcomes

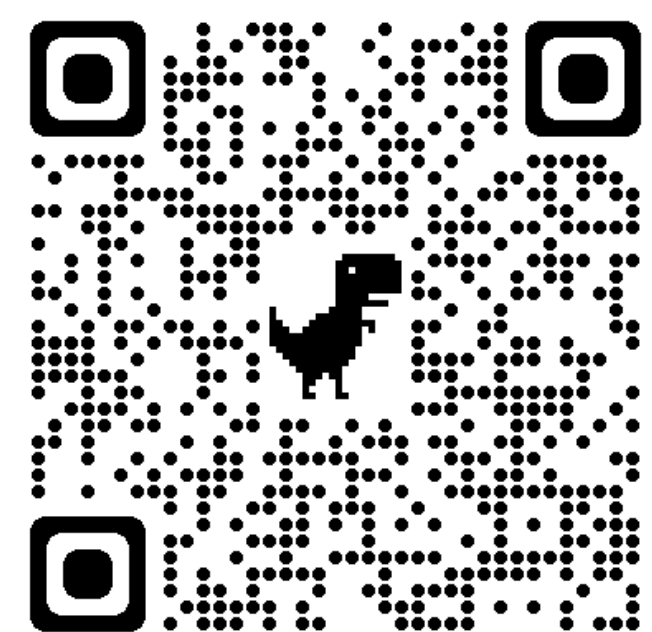

Since the start of the project, we have:

- Hired Alyssa Grekoff, RN as our School Health Liaison
- Had our initial project Kickoff call with Montana Health Care Foundation
- Informed our school community about the project via our website, social media and through a digital newsletter which is sent to staff and school families
- Introduced Alyssa and the project to staff at school staff meetings
- Had several meetings with Logan Health School-Based Health Center to coordinate formation and decide on goals for our SBHC-Student Advisory Committee
- Created lunchtime engagement at the High School with SBCH staff to recruit and encourage students to join our new SBHC-Student Advisory Committee
- Had meeting with school psychologist Ryan Nollan to coordinate our support for students with chronic absenteeism (Multi-Tiered System of Support - MTSS)
- Held a heart health / blood-pressure screening at the High School for staff over lunch during February Heart Health Month

Alyssa Grekoff and Jenn Knopik
welcome students to the nurse's
office at Bigfork elementary school
