CALL ME

What is 7th grade Science all about?

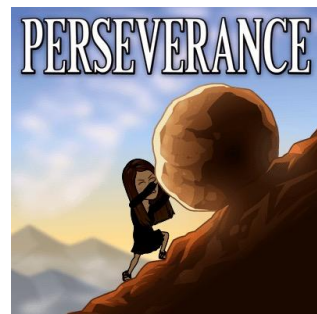

Basic scientific vocabulary, reading and writing will be expanded. This course introduces a variety of topics ranging from the study of living things to environmental problems including cells, classification, heredity, evolution and ecosystems. A special emphasis will be placed on students doing the work of investigation, as well as reading, discussing and resolving biologically related issues and topics.

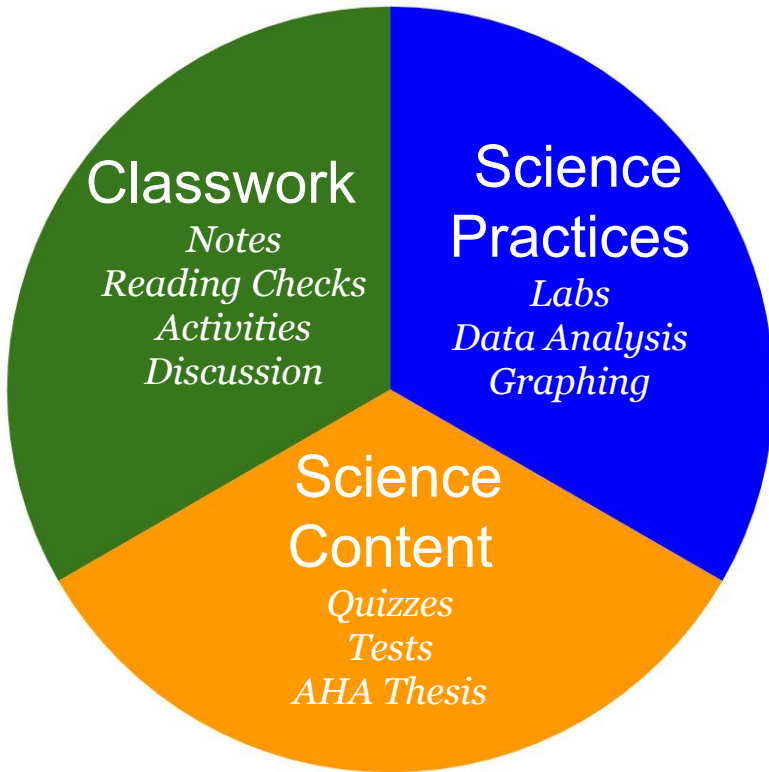

Strive for Success

7th grade can be difficult in many ways. It can be easy to fall behind or become overwhelmed. It will be much easier to keep up rather than catch-up! Manage your time wisely and ask for support when you need it!

Mrs. Van Valkenburg is available to support before school daily, at lunch Mon-THurs, & after school Tues/THurs!

Work and Grading

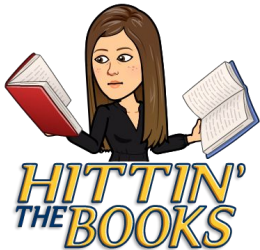

Assignments are posted on the whiteboard and on Google Classroom for your convenience. Extra copies of all handouts are available in the filing cabinet next to the door in room 200.

Final grades are calculated using a percentage of total points.

A	90-100	C	70-79
B	80-89	D	60-69
		F	0 - 59

 **Late work** is accepted up until the end of each unit. Contact Mrs. Van Valkenburg if you need more time and / or more support.

Class Materials

- 9x11 inch spiral notebook (ISN) or you may buy one from Mrs. Van Valkenburg for \$1
- Pencils and pens
- Colored pencils
- Tape

Absences

If you are not in class, it is **your responsibility** to find out about and complete the work you missed. All work is due before the end of the unit!

Classroom Rules

- Be Respectful
- Be Responsible
- Be Safe
- Be a Learner

B.Y.O.D.

Devices are to be stored in "Phone Parking" or backpacks unless being used for educational purposes when you have asked for permission with intention!

I have read and understand Mrs. Van Valkenburg's Expectations.

Parent Email _____

Dear Parents and Guardians,

In addition to knowing that you have read the syllabus, I would like to know more about your student. So, my optional task for you is to tell me about them in a million words or less! You may choose to write it by hand and send it in with your student, or type it and email it to me at evanvalkenburg@bigfork.k12.mt.us. Either way, everything you tell me will remain confidential unless you would like me to share it with your student's other teachers. I appreciate all of your hard work at home to support your student and I look forward to getting to know them better this year.

Thank you,

Elise Van Valkenburg
